FLOWERS
FOR THE
HARDY GARDEN

Twin Larches Nursery
WEST CHESTER
 PENNA.
Twin Larches Nursery

The nursery is located near the village of Rocky Hill, about four miles east of West Chester, Pa., and the same distance south of Malvern, Pa. Only a short ride from the Paoli to West Chester state road and the Philadelphia and West Chester Pike.

Anyone who is interested in hardy plants is always welcome, and prospective purchasers will find it very satisfactory to make their choice from blooming plants in the field.

Peonies and Irises are generally at their best the first week in June, and the Hardy Phlox is in full bloom the last of July. There is, however a wealth of bloom through the entire season.

The following plant list is made up of stock ready for sale this year, and I can vouch for the genuine worth of every plant offered. I intend never to include a perennial that for some reason is undesirable or even mediocre. I send out strong field grown plants as I find these give far more satisfactory results than pot grown, especially if planted when dormant in early spring and fall.

TWIN LARCHES NURSERY
LILIAN A. THOMAS
West Chester, Penna.

Read Before Ordering

FORWARDING—Unless otherwise instructed, all plants will be forwarded by express, purchaser paying charges. If customers wish plants sent by Parcel Post, add 10% to value of order for postage to points east of the Mississippi River and 20% to points west of the Mississippi. (Large plants cannot be sent by mail.)

PRICES—All prices are strictly net.

TERMS—Customers wishing to open an account should send references from other nurserymen; otherwise terms are cash.

REMITTANCES—Should be made by post office or express money order, registered letter or check, to Twin Larches Nursery

GUARANTEE—Every effort is made to send out the plants true to name, but if, through error on our part, any plant should prove untrue, we will replace it free of charge. We do not, however, in any way guarantee the success of the grower purchasing stock offered in this list, as failures may be due to causes beyond our control, such as unfavorable weather or soil conditions, or too deep or too shallow planting, etc.
Herbaceous Perennials

ACHILLEA. (Milfoil or Yarrow)

Filipendulina. Yellow, 4-5 ft.—July-Aug. 
Millefolium Roseum. Rosy pink, 2 ft.—July-Aug. 

ACONITUM. (Monkshood)

Sparks Variety. Violet blue spikes, 4 ft.—July-Aug. 
Fischeri. Light blue spikes, 18 in.—Sept. 

AJUGA (Bugle weed)

*Genevensis. Blue spikes, 6-8.—May-June 
*Reptans Rubra. Blue, 6-8 in.—May-June
